NITIN KUMAR KASHYAP

Senior DevOps Engineer | Platform Engineering | Cloud Infrastructure | SRE

+91 99979 22463 | Nakshkashyap12@gmail.com | linkedin.com/in/nitinkrkashyap | India - Open to relocation to Canada

PROFESSIONAL SUMMARY

Senior DevOps Engineer with 5+ years of experience designing, automating, securing, and operating cloud-native infrastructure across AWS and Microsoft Azure for enterprise and financial-services environments. Hands-on expertise in Kubernetes (EKS/AKS), Terraform, CloudFormation, CI/CD, GitOps, DevSecOps, observability, high availability, disaster recovery, and cloud cost optimization. Delivered multi-region platforms supporting 99.9% uptime, improved deployment velocity by 40%, reduced provisioning time by 50%, and achieved cloud cost reductions of up to 70%. Experienced in technical leadership, mentoring, and cross-functional delivery.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, RDS, DynamoDB, EKS, Lambda, CloudWatch, CloudFormation, IAM, VPC, CodePipeline); Microsoft Azure (AKS, Azure DevOps, Key Vault, Azure Repos); GCP; DigitalOcean
Containers & IaC: Kubernetes, EKS, AKS, Docker, Docker Compose, Helm, KOPS, KubeSphere, Terraform, AWS CloudFormation
CI/CD & GitOps: Jenkins, GitHub Actions, GitLab CI/CD, Azure DevOps, AWS CodePipeline, ArgoCD, GitOps
Automation & OS: Ansible, Python, Bash, Ubuntu, Amazon Linux, Linux administration
Observability: Prometheus, Grafana, ELK Stack, Amazon CloudWatch, alerting, SLO management
Security: HashiCorp Vault, AWS Secrets Manager, Azure Key Vault, Keycloak, IAM, DevSecOps, SOC 2, zero-trust controls
Practices: SRE, HA, DR, cloud cost optimization, FinOps, microservices, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer (Senior Software Engineer II - Cloud & Infrastructure) | **Feb 2023 - Present**
Calance Software Pvt. Ltd. - Gurugram, India

- Architected and deployed multi-region, highly available Kubernetes platforms on Amazon EKS and Azure AKS across 3+ environments, with Helm-managed workloads, automated failover, and disaster recovery, sustaining a 99.9% uptime SLA.
- Standardized Infrastructure as Code with Terraform and AWS CloudFormation across AWS and Azure for 8+ engineering teams, reducing environment provisioning time by 50% and eliminating configuration drift.
- Designed GitOps workflows using GitHub Actions and GitLab CI/CD, enabling automated, auditable deployments and reducing manual release effort by 60%.
- Built and optimized CI/CD pipelines across Jenkins, GitLab CI/CD, GitHub Actions, Azure DevOps, and AWS CodePipeline, increasing deployment velocity by 40% and reducing deployment failures by 35%.
- Implemented observability using Prometheus, Grafana, ELK Stack, and Amazon CloudWatch with SLO-based alerting, expanding monitoring coverage and supporting 99.9% system uptime.
- Established centralized secrets management using HashiCorp Vault, AWS Secrets Manager, Azure Key Vault, and Keycloak with rotation policies and zero-trust access controls supporting SOC 2 compliance.
- Led cloud cost optimization initiatives across AWS and Azure by identifying over-provisioned resources and rightsizing workloads.
- Mentored 5+ junior engineers in Kubernetes, Terraform, cloud architecture, and DevOps practices while coordinating with geographically distributed teams.

Senior DevOps Consultant (Senior Associate DevOps Consultant) | Oodles Technologies - Gurugram, India **Jan 2021 - Jan 2023**

- Designed and maintained CI/CD pipelines using Jenkins, GitLab CI/CD, and Azure DevOps across multiple client engagements, improving release frequency and stability.
- Automated infrastructure provisioning, configuration management, and application deployment using Terraform, Ansible, and Docker.
- Implemented DevSecOps controls including pipeline security scanning and secrets management with Azure Key Vault, reducing credential-exposure risk.
- Containerized microservices with Docker and Docker Compose to standardize deployments across development, staging, and production.
- Received Star of the Quarter and Rising Star of the Quarter recognition for delivery and technical impact.

Cloud & DevOps Intern | Xenonstack - Chandigarh, India **Oct 2020 - Dec 2020**

- Supported cloud infrastructure automation and CI/CD configuration while gaining production-support experience with Docker, Git, Kubernetes, and Linux.

SELECTED PROJECTS

Smart Health Network - DevOps Engineer - Led production infrastructure migration from Microsoft Azure to AWS, reducing monthly cloud costs by 70% through rightsizing and reserved-instance optimization; migrated CI/CD from Azure DevOps to GitHub Actions and delivered CloudFormation for RDS, DynamoDB, VPC, and VPN connectivity.

FINCA - Senior DevOps Engineer - Built and operated production Amazon EKS infrastructure with Helm and Jenkins; integrated Amazon Textract and Apache Airflow for document-processing automation and supported a scalable cloud-native enterprise search platform.

Protocol Scoring Solutions - Lead DevOps Engineer - Orchestrated a zero-downtime migration of infrastructure and secrets across AWS accounts and HashiCorp Vault within one week with zero data loss; managed multi-stage delivery and access controls with Azure Repos and Azure DevOps.

GitOps Infrastructure & Application Deployment - DevOps Engineer - Implemented GitOps automation using GitHub, ArgoCD, and Terraform, reducing manual deployment errors by 60%; strengthened DevSecOps with automated secrets management, compliance checks, and policy-as-code.

Genesis - DevOps Engineer - Managed production Kubernetes integrated with HashiCorp Vault, Prometheus, Grafana, and Keycloak; containerized Docker microservices integrated with the Mainflux IoT platform.

Rainrock Scheduling - DevOps Engineer - Designed AWS architecture using Elastic Beanstalk, S3, CloudWatch, and auto scaling; built CI/CD pipelines for repeatable, zero-touch production deployments.

CERTIFICATION

- AWS Certified Solutions Architect - Professional | Amazon Web Services

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science / Information Technology | **Jun 2016 - Jul 2020**
Teerthanker Mahaveer University - India
